

#### Audience:

Deaf Culture Sensitization training was introduced as part of the eDeaf offering and is **aimed at Deaf workers, their colleagues, supervisors and management.**

The purpose of this interactive workshop is to **teach all participants about the South African and worldwide Deaf cultures as well as, Sign Language and it's history.** This introductory course enhances communication in the work environment and provides understanding between Deaf and hearing staff members to improve productivity.

#### Trainers:

Our professional team of Deaf facilitators are accompanied by a Sign Language interpreter. Together they **ensure active participation and provide constructive guidance in bridging the communication gap between all participants.** This is an enriching experience which focuses on the following aspects:

1. What is South African Sign Language?
2. The do's and don'ts in the Deaf culture.
3. How to communicate in the work environment using Sign Language.
4. The role of a Sign Language interpreter.
5. Using finger spelling appropriately.
